For Immediate Release:

Community Child Care Center Announces Unique Energy Audit Fundraising Partnership

Portsmouth, NH (October 21, 2009)- Community Child Care Center of Portsmouth (CCCC), in conjunction with Affordable Weatherization Solutions (AWS) of Dover, NH, is launching an environmentally based, long term fundraising program. AWS is an energy consultant specializing in the use of energy audits to significantly reduce the cost of fuel required to heat your home or business. Community Child Care Center of Portsmouth will receive a percentage of the cost of the audit.

“This is a great opportunity as it addresses the needs of the community at large, helps meet the financial needs of the center, and benefits the donor by reducing the cost to heat their homes,” said Catherine Edison, Development Director. “AWS is partnering with us at a critical time, as we now have more families in need, and are facing significant funding cuts due to the State’s budget deficit.” The center is kicking off its annual campaign this week with a goal to raise \$12,000 over the next few months.

Mike Greco, Managing Partner of AWS said, “a professional energy audit is the most critical part of any energy reduction plan as it provides the home and business owner with a scientifically derived action plan that has a return on investment several times greater than almost any other investment of capital.”

Founded in 1967, CCCC is the third largest licensed child care center in the State that provides a nurturing and stimulating early learning environment for children in the Seacoast New Hampshire area. The center provides child care, early education, and before & after school programming to over 280 children age 8 weeks through 12 years old. Located at Community Campus, West Road, Portsmouth, the center is committed to giving priority to low-income families in the seacoast, and advocates for children and families. The center also has programs in all three Portsmouth Elementary Schools, and Greenland Central School. To find out how you can help CCCC spread the word about energy audit benefits, email cedison@communitycampus.org, call 603-422-8223, or visit www.communitychildcarenh.org.
